AMERICAN MADE & MELTED

ASTM A53 Grade A ERW Standard Black Steel Pipe

Sch 7 | Sch 10 | Sch 40 | Sch 80

**Fire Sprinkler, HVAC,
and Low-Pressure
Plumbing Applications**

Quality You Can Trust – Every Time

A VETERAN- & FAMILY-OWNED BUSINESS

Fayette Pipe, a division of Specialty Conduit, is a manufacturer of ASTM A53 Grade A Sch 7, 10, 40, and 80 ERW black steel pipe for fire sprinkler, HVAC, and other low-pressure plumbing applications.

We benefit from our parent company's more than 20 years of experience in threading; elbow, nipple, and coupling production; and value-added services to create a one-stop solution for our customers.

AMERICAN MADE AND MELTED

Fayette Pipe is made from high-quality coil slit to the precise width, ensuring a superior finished product. The strip is transformed and contoured by our high-frequency electric resistance weld (ERW) pipe mill for seam welding. It then passes through an Eddy Current (NDT) testing process before it is sized, straightened, painted, and cut to length.

100% HYDROTESTED

The pipe then travels through a precise end-facing process before each pipe is hydrostatically tested to conform with ASTM A53 requirements. We offer our pipe in various diameters, lengths, and end types. **Fayette Pipe** is UL/FM approved (except for Sch 80) and produced to the appropriate ASTM standard.

Fire Sprinkler Systems

THE FIRE PROTECTION PICK

Fayette Pipe's ASTM A53 black steel pipe is the go-to material for fire sprinkler piping systems. From our clear MIC Defense antimicrobial coating to the strictest testing protocols, make **Fayette Pipe** your affordable and reliable choice.

HVAC & Plumbing Applications

FAYETTE PIPE IS USED FOR:

- hydronic piping
- drains and overflows
- emergency generator exhaust
- safety and relief valve discharge
- steam vents
- high- and low-pressure steam
- air lines
- gas lines

ALL FAYETTE PIPE PRODUCTS ARE PROUDLY MADE IN THE USA

Our Line of Quality Products

SCHEDULE 7 EZ-FLOW

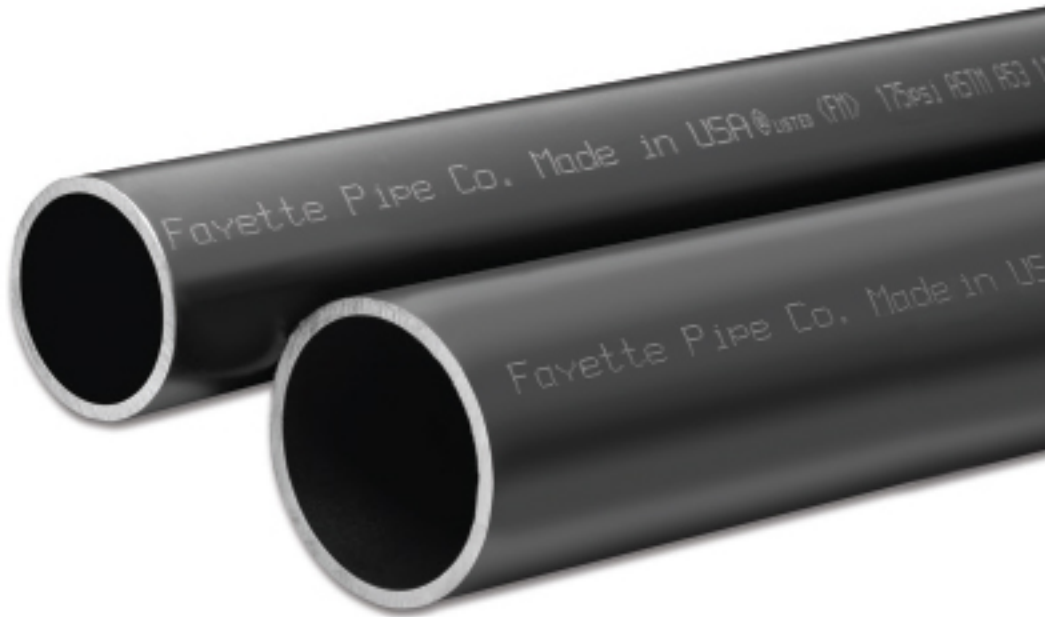

Suitable for welding or roll grooving, ASTM A795/A135. Sch 7 is available in 21' lengths, diameters of 1-1/4", 1-1/2", 2", and 2-1/2".

SCHEDULE 10

Schedule 10 A795/A135 is available in diameters of 1" to 2-1/2" and lengths of 10' up to 21', with beveled or grooved ends.

SCHEDULE 40

Produced to the latest revision of ASTM A53A/53M - ASME B36.10M. Sch 40 is available in 1/2" to 2" dia. and in 10' and 21' lengths in PE, T&C, TBE, and grooved ends.

SCHEDULE 80

XH Schedule 80 is available in diameters of 1/2" to 1-1/2" and in 10' lengths and threaded both ends. Produced to the latest revision of ASTM A53A/53M and ASME B36.10M.

FayetteGuard — THE FIRST LED-CURED PAINT FOR BLACK STEEL PIPE

Fayette Pipe introduces our new groundbreaking FayetteGuard LED-cured paint for our black steel pipe exteriors, the first in the US. This specialized formula is cured with advanced LED lamps and

photo inhibitors, offering superior protection, energy efficiency, unmatched durability, long-lasting performance, environmental benefits, and enhanced aesthetic appeal for installations.

MIC Defense is a clear, corrosion inhibitor designed for the protection of wet, dry, and pre-action fire sprinkler systems and standard pipe closed-loop

systems from both microbiologically influenced and oxygen corrosion. MIC Defense is applied to the inner wall of the pipe during production.

Specs at a Glance

FAYETTE PIPE SCHEDULE 40

- ASTM A53 Grade A
- Type E
- Electric Resistance Welded
- NPS 0.5" to 2" diameter
- Suitable for welding, threading, press connections, and roll grooving
- 10' and 21' pipe lengths
- Plain end, threaded and coupled, threaded both ends, and grooved ends
- 10' threaded both ends
- Thread taper from 0.125" up to 0.75"
- UL listed 852 & FM approved 1630
- Continuously stenciled
- 100% hydrostatic and nondestructive electric testing
- MIC Defense antimicrobial corrosion inhibitor
- **FayetteGuard**: The first LED-cured paint for black steel pipe

BENEFITS OF ERW PIPE

- Energy-efficient production
- High-precision dimensional tolerances
- Better sealing capability
- Superior threadability
- High welding properties

On-Time Delivery Anywhere in the Continental US

Fayette Pipe delivers American-made and melted black steel pipe to your locations when you need it. We will exceed your expectations with a high-quality product backed by a great logistics team.

Make the Right Connection

Fayette Nipple offers 100% American-made and melted nipple fittings from standard carbon-welded steel in resilient black and galvanized finishes. Available in diameters from 1/8" to 6" and conforming to ASTM and SME/ANSI standards, they ensure reliability, strength, and durability for diverse applications. Trust our 20+ years of experience cutting and threading pipe. Learn more at www.fayettenipple.com

Safe, Reliable Piping Solutions

We have set the bar very high as a family- and veteran-owned business. After all, we have our honor, name, and legacy to uphold. Our pipe is backed by a commitment to quality at a fair price and a focus on you, our customer.
